# Non-Tuition Payments

What's the X Factor?

# Agenda

- Getting to know each other!
- What do we see in the field?
- What questions should I ask?
- Why does this matter?
- Key Takeaways
- Practical example and Discussion

The background features a repeating pattern of orange plus signs on a white background. A large, dark blue curved shape, resembling a semi-circle or a large arc, is positioned in the lower half of the image, partially overlapping the plus sign pattern.

**Getting to know you!**

# What do we see in the field

**Campuses lean on banks**

**Driven outside of Finance**

**It is hard to say "no" to additional revenue**

**PCI is a "Hot Potato"**

**Reconciliation is a mess**

**Too big to "wrap our arms around"**

**Fees are not transparent**

**Rogue Departments**

**Finding an omnichannel solution**

**Modern Tender Types**

# What kind of questions should I be asking?

**Are these ongoing or cyclical?**

Can the eCommerce site be managed by the department?

How is data getting in the G/L?

Transact Campus | Confidential

**One-time or reoccurring?**

Do we want to give people the option to pay over time?

Do we want to give customers the ability to save payment methods?

**Domestic/ International**

Chicken or the egg situation.

Giving options to pay in a method they are familiar with.

**What is the volume?  
Location?**

High processing rates erode margin on small dollar items.

Do you need an online, over the phone, and in-person presence?

**Who is the merchant and what do they need?**

Is the same person running the payments?

What kind of reporting do they need?

Who is fulfilling orders?

# Why does this all matter?

## Security

- Data security isn't a problem until it's a problem.
- Data breaches cost Higher Ed institutes on average \$3.7M in 2023.
- NACUBO's #3 business issue of 2023 – Securing and Modernizing Tech Systems

## Cost

- More MIDs, more hardware, more cost, more exposure.
- Transparency matters when it comes to pricing.
- Creating economies of scale can save money and create efficiencies.

## Effort

- Champions have greater influence on the choice of solution.
- "People will work as hard as they need to get the job done."
- Turning a reluctant "No" into an easy "Yes."

# Key Takeaways

If you answer “no” to any of these questions, there is an opportunity.

- Do I understand the needs of my campus merchants?
- Am I leading the charge and championing a solution/process that works for me?
- Is my solution fully integrated into my Finance system/GL?
- Do I understand the current fee structure? Processing? MIDs? Hardware? Subscription?
- Am I using a validated point-to-point encrypted (P2PE) solution? Do I understand my PCI scope?
- Do I have an automated reporting process for campus merchants?
